

## Trócaire's Development Education Resources

For Educators, Teachers and Youth Workers

Development Education is an active and creative educational process designed to increase awareness and understanding of the world we live in. It challenges perceptions and stereotypes by encouraging optimism, participation and action for a just world. See [Trócaire's Educator's Guide to Development Education](#).

Trócaire has a wealth of development educational resources to aid you in educating your students/young people on global justice and human rights issues, these resources include:

- Development Education active methodologies and lessons
- Development Education Games
- Development Education Videos
- Competitions
- Podcasts
- Photo Packs
- Religious Education Resources

For your convenience we have created an easy access reference sheet with our most current resources for **early years, primary, post primary** and **youth** sectors. For more educational resources check out our online catalogue [here](#).
